**The Bio-Wipe Bag™  
Containment System**

**The Mess-Up Mitt™  
Containment System**

### **Features/Benefits**

Bag size of 11 1/2" x 12" has an absorbent capacity of 1/2 pint, accommodating most spills.

Absorbent pad is bonded to one side allowing for germicides and disinfectants to be applied.

Two-thumbed mitt on interior of bag allows for right or left handed use.

Opaque polyethylene plastic bag reduces the risk of cross-contamination in potentially infectious spills when used with protective gloves.

The easy "inside-out" cleanup method is second nature to medical personnel.

Permanently sealed adhesive closure provides for safe and proper disposal of contaminant.

Provides a convenient and temporary containment vehicle for proper disposal into an approved OSHA and/or ASHP container. Complies with OSHA's Standard 29 CFR 1910. 1030 for Personal Protective Equipment.
